Fully Automated and Integrated
Club Management Software

# Product Description

Simplify Your Club Operations and Amplify Your Revenue

eCube is a web-based application offering a complete collaboration suite of fully integrated software for seamless management of all your club activities. Now, no more jumping from one application to another, get access to a complete automation of end-to-end operational functionality as well as administrative work to manage your club efficiently and amplify your revenue while enhancing customer experience.

Ideal for residential or leisure clubs, resorts, and large recreational centers, it is highly scalable and has a modular approach with intuitive user navigation features. Automate time-consuming tasks right from membership management, and restaurant POS, up to recurring payments and financial reporting effortlessly.

Categorized into various modules, it is a truly integrated, multi-vendor, single-source solution enabling clubs to take their business to new heights by bringing all the aspects together at one easy place.

# Why use eCube?

## Operational Efficiency

o    Feature-packed eCube Club Management Software makes operations a breeze.
o    A single-point dashboard view makes everyday activities/operations efficient.
o    Automated software makes handling various tasks as well as manual interaction with the members easy.
o    Scalable and intelligent features to generate real-time reports using business analytics (BI) with a graphical view.
o    Management software helps amplify revenue and is perfect value for money.
o    CRM application feature enables centralised club promotions.

## Cost Saving

o    It reduces material and cost pilferages by enabling better planning of the required club inventory and resource management.
o    It allows expense forecasting with the use of business intelligence/analytics.
o    It helps reduce manpower for mundane accounting and operational processes and helps automate the same.

## Hand Holding

o    The eCube team enables a complete transition of the club operations management.
o    Our Support team provides 24/7 services for all technical and operational issues as well as training to the staff to use the software on everyday basis.
o    The software supports a big part of the automation thus helping reduce manpower.
o    The business analytics embedded in the software enables the management with expense analysis as well as provides insights into the club operations efficiencies.

## Support Services

o    We provide 24x7 technical support services.
o    Comprehensive range of managed IT support services.
o    We have in-house professionals who leverage agile technical expertise.
o    Solutions that help you enhance your club IT infrastructure.

# eCube Offerings

Automate the entire gamut of the club system and streamline your operations with eCube which is divided into two versions for a more cohesive experience. Customized as per client's requirements, you can now create a seamless customer experience and get the most out of your software.
